## John Carter

Founder of Simpler Trading®

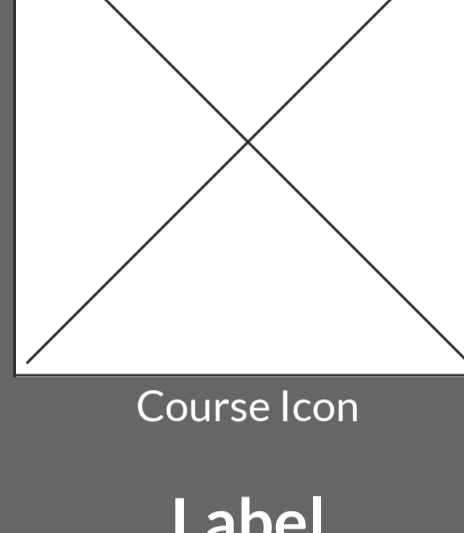

Social Media Icons

John Carter has been a full-time trader since 1996. In 1999, tired of talking to his goldfish while trading alone in his office, John launched TradetheMarkets.com to post his trading ideas. The company has since evolved into what is now, Simpler Trading. In addition to being an experienced trader, John is also a published author. The 3rd Edition of his book, John Carter: Mastering the Trade, was a #1 Best Seller on Amazon. John is the trading expert everyone turns to when the markets go awry (as they often do), and many of our traders have taken ideas and strategies from him and morphed them into their own strategies. He's truly one of the best with a level of charisma that draws people in, which has transformed him into the famous trader he is today.

He started Simpler Trading because he wanted to create a community of traders, who educate others simply because they care about other people's success. His setups, market knowledge, and guidance to continually improve yourself as a trader are invaluable. As for his trading strategy, it combines expert technical analysis with an overall macro, fundamental view. His proven trading setups identify large directional plays that he leverages with both options and futures, as well as neutral moments in time for income trading opportunities when market conditions are on the slow side. He likes being in the trade before anyone else, and he uses his signature indicator 'the Squeeze' to enter many of these plays. The scans he created allow him to locate his favorite setups and jump on moves before they take off.

What makes him a truly fantastic mentor on top of his vast knowledge, is his ability to make you feel as though you're talking to an old friend. John's trades can generally be adjusted for those looking for a more conservative take on his aggressive plays, and traders can use his tools to find setups that fit their own risk parameters. His trading style is best geared towards a trader with previous experience and a solid understanding of the inner workings of the market. You can find him daily in our trading room, sharing his analysis and trade ideas with our members

# NEW: John Carter's "Sandbox" Strategy

Discover how to exploit Wall Street's biggest blind spot

Compare packages >

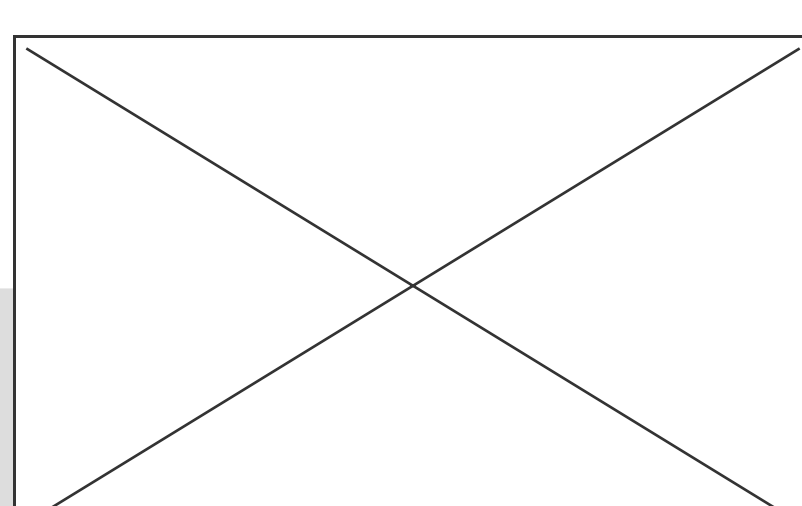

## John Carter's New "Sandbox Strategy" Class

Discover the unbeatable edge human traders have over Wall Street's trading algorithms by exploiting their one blindspot: knowing the price levels where they trigger reversals. John Carter created the "Sandbox Strategy" by combining his popular Quant Pivots and Quick Hits tools.

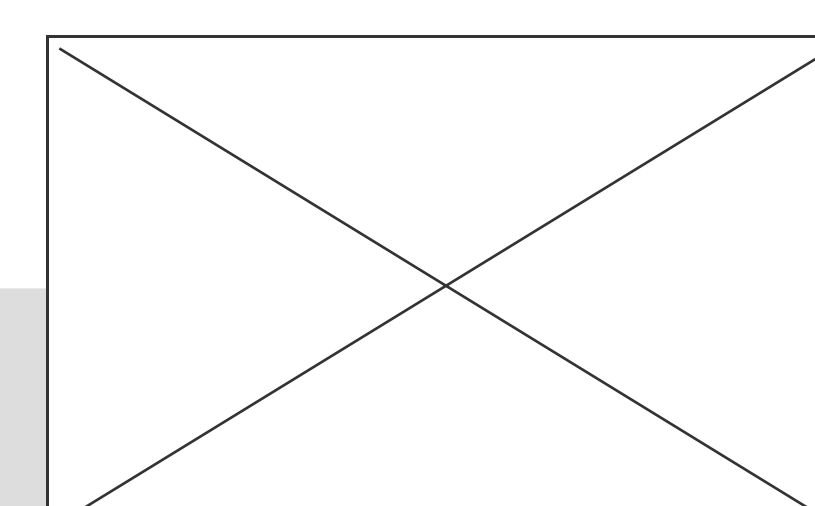

The Quant Pivots define the boundaries of the "sandbox" where the algorithms trade (historical data reveals the extreme edge of the range holds up to 92% of the time). And the Quick Hits identify exactly when to exploit the algo's blindspot by revealing where momentum is turning using the Squeeze Rotation and Trend Rotation tools.

The goal is to time reversals with up to 92% accuracy by trading inside the sandbox. This new strategy can be applied to stocks, futures, and options, and for day trading, swing trading, or longer term positions.

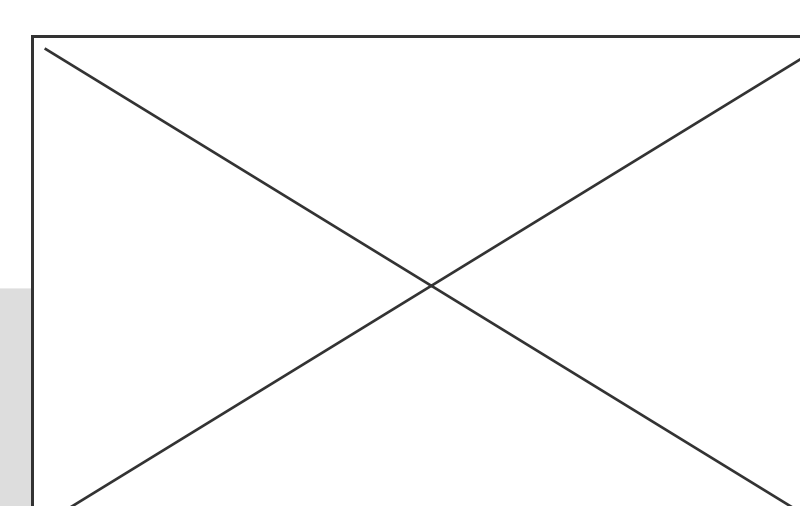

**LIVE Class with LIVE Trading**

Discover how John precisely times trades with up to 92% accuracy

**Quant Pivots Indicators**

Predict precise levels where the "algos" trigger on almost any chart or timeframe

**Quick Hits Indicators**

Target quick gains by revealing exactly when the market is turning

## Who is John's Sandbox Strategy for?

Day traders

Swing traders

Position traders

## Here's everything you get during this limited time offer

Discover the advantage of choosing us - where superior performance, unmatched features, and a customer-centric approach converge to elevate your experience. Join the ranks of those who demand the best and make the smart choice with our exceptional competitive offerings.

**Quant Pivots Indicator**

A.I. "Algo Bots" drive the market. Traders who know the levels where these powerful programs are likely to turn the market have an incredible edge (and those who don't are at a massive disadvantage!). John's popular Quant Pivots automatically identify these critical price levels on almost any chart or timeframe.

**LIVE Sandbox Strategy Class**

During this new live training, John is revealing how he precisely targets cyclical price rotation by combining the crazy accurate Quant Pivots with the dynamic Quick Hits trade timing tools. Attend live on September 23rd from 12:00 pm - 4:00 pm Central. Complete recordings are included. It should be noted that this class requires both Quant Pivots And Either Quick Hits Indicators.

**Quick Hits: Squeeze Rotation**

This popular tool reveals when to target intraday price rotations.

The goal is to catch the "snap back to the mean" moves that happen nearly every day.

Compatible with ThinkorSwim (ToS) and TradingView

**Quick Hits: Trend Rotation**

This new tool reveals when Quick Hits signals line up in multiple timeframes.

It's designed to give traders a quick visual confirmation of trend reversal without having to look at multiple charts.

Compatible with ThinkorSwim (ToS) and TradingView

# Micro Voodoo Line® Strategy

How to Automatically Predict Tradeable Levels in a Violently Choppy Market With John Carter, David Starr, & Henry Gambell

[Buy this course](#) >

## Discover the New Road Map for Active Day Traders...

For over 12 years, swing traders have had a dynamic road map for tradeable support and resistance levels. Now, day traders can get the same edge. Knowing your levels is the key to consistency in a market with violent intraday swings. Forget manually drawing support and resistance lines. Everyone does that, so there's no edge. That's where you're likely to get stopped out by AI trading bots. Don't play their game!

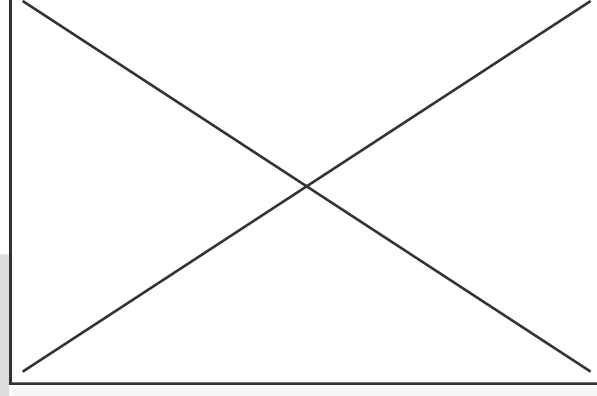

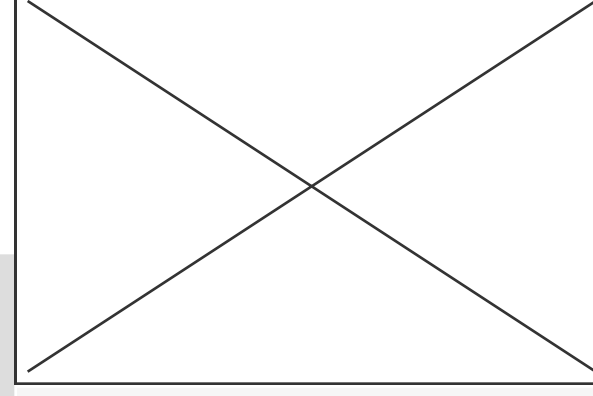

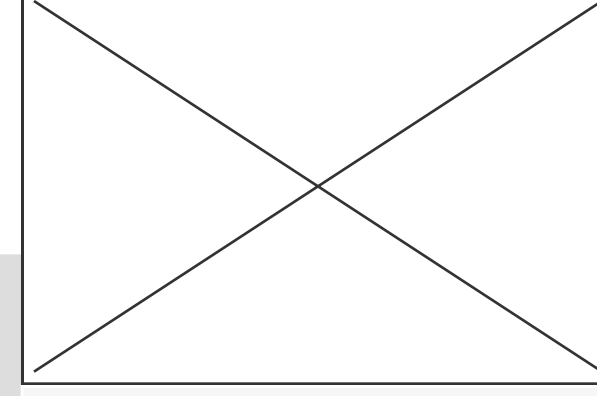

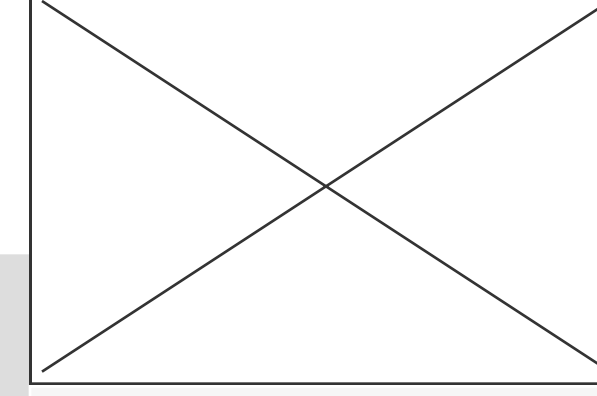

With Micro Voodoo Lines®, you have a road map of dynamic buy and sell levels for the major stock indexes (and select stock symbols). Follow along as John Carter, David Starr, and Henry Gambell reveal exactly how they day trade these levels. Each has their own unique edge you can follow. This is your chance to be among the first to have the Micro Voodoo Lines on your charts!

## Who is John's Sandbox Strategy for?

- Stock index day traders
- Futures traders
- ETF traders
- Options traders
- All levels of traders

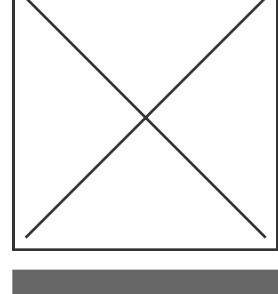

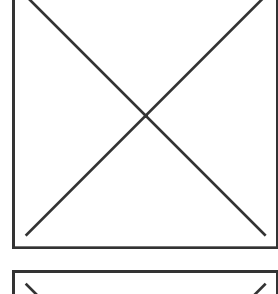

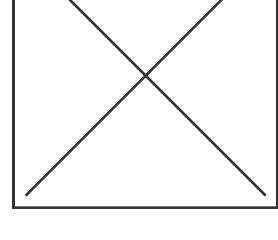

## Here's everything you get during this limited time offer

Discover the advantage of choosing us – where superior performance, unmatched features, and a customer-centric approach converge to elevate your experience. Join the ranks of those who demand the best and make the smart choice with our exceptional competitive offerings.

 <p><b>Micro VooDoo Lines Indicator</b></p> <p>David Starr's intraday Micro Voodoo Lines® are designed to expose dynamic support and resistance levels in the most actively traded stock indexes (and select stock symbols). Because the market is ever-changing, David updates the Micro Voodoo Lines® periodically. Available for ThinkorSwim and TradingView.</p>	 <p><b>Options 101 and Futures 101</b></p> <p>If you're new to trading options and futures, these classes give you exactly what you need to know without bogging you down with confusing jargon or needless theory. You'll learn the "Simpler way" to trade them so that you're prepared to take full advantage of the new Micro Voodoo Lines Strategy right away.</p>	 <p><b>Options Gold Quarterly Membership</b></p> <p>Get 3 months of our Options membership FREE. You'll have access to live trading sessions with our team of pros, including Danielle Shay, Taylor Horton, Bruce Marshall, Allison Ostrander, Kody Ashmore, Sam Shames, and more!</p>	 <p><b>And more...</b></p> <p>You also get access to the Chat Room, Real-Time Alerts, Daily Premium Videos, Training Room, and our Weekly Watchlist. Your membership will renew at \$197 per month after that (a savings of \$50 per month)!</p>

## Meet the Traders

One of the most important things when learning to trade is having trading mentors. We don't want you to waste your time wading through business after business, trying to find an experienced trader you can trust to guide you in the right direction. Trade with our team of experienced traders instead.

	<p><b>John Carter</b> Founder of Simpler Trading</p>	^
<p>John Carter has been a full-time trader since 1996. In 1999, tired of talking to his goldfish while trading alone in his office, John launched TradetheMarkets.com to post his trading ideas. The company has since evolved into what is now, Simpler Trading.</p> <p>John is the trading expert everyone turns to when the markets go awry, and many of our traders have taken ideas and strategies from him and morphed them into their own strategies. He's truly one of the best with a level of charisma that draws people in, which has transformed him into the famous trader he is today.</p> <p><a href="#">View full profile</a> &gt;</p>
